PROFESSIONAL EXPERIENCE

Morgan Stanley Securities (China) Co., Ltd

Shanghai, China

Compliance Intern | Legal & Compliance

Feb.2024 – Jun.2024

- **Policy Research** – Independently researched laws and regulations related to investment banking, and authored 5+ reports on topics such as *Reduction of Shareholders' Holding in Listed Companies*, *Cross-border Personal Information*, *Regulation in IPO Procedures*, etc. Comparatively analyzed changes and updates of laws to provide references to improve compliance in the firm.

- **Anti-money Laundering** – Assisted the company's anti-money laundering (AML) management, and conducted global sanction list screening through Dow Jones to ensure the compliance of customers and their related parties. Assisted the Legal and the Office of the Board of Directors in carrying out daily work.

Ernst & Young Hua Ming LLP

Shanghai, China

Data Analytics Intern | Assurance

Jul.2022 – Aug.2022

- **Data Analytics** – Utilized Excel and Alteryx to analyze customers' financial data. Analyzed over 500 million rows of data in an IPO project, and generated auditing risk management reports.

- **Audit** – Participated in more than 5 audit projects, collaborating with clients' financial departments and Ernst & Young audit teams to identify and mitigate audit risks throughout the procedures.

PROJECT EXPERIENCE

China Securities Company Limited

Beijing, China

Equity Research | Solar Energy Team

May.2023 – Aug.2023

- **Database Maintenance** – Collected and maintained data related to Solar Energy. Independently built financial analysis models for both qualitative and quantitative analysis, handling over 10 databases.

- **Desk Research** – Assisted more than 20 interviews and wrote meeting summaries. Authored daily and weekly reports and contributed to an in-depth company research report on the market of PV glasses.

Analysis of Airline Marketing Strategies Based on User Behavior Clustering

Shanghai, China

Curriculum Project in Data Mining

Nov.2022 – Dec.2022

- **Data Mining** – Conducted data preprocessing and exploratory analysis. Utilized K-Means clustering methods to evaluate clustering effects and gain a deeper understanding of the data.

- **Business Analytics** – Summarized the characteristics of various user clusters based on the clustering results and developed marketing strategies for each cluster leveraging marketing principles.
